Dear Scott,

The Whitsunday Conservation Council (WCC) would greatly appreciate a meeting with you (and other Council staff who you think might consider would be good for us to work with) for the purpose of discussing how we can do better protecting and improving our urban treescapes and individual significant trees.

A meeting would help us understand how to work with Council to achieve better outcomes, especially in these times of climate change and where trees, green spaces and parklands have been shown to contribute so much to a community's health and sense of wellbeing.

And with better environmental outcomes for all as well.

Please contact me either via WCC email admin@whitsundayconservation.org.au

or by phone should you require any additional information.

Regards,

Suzette Pelt
